OBJECTIVE

Third-year bachelor's student in information security at MIEM, HSE, studying machine learning courses.

EDUCATION

Secondary general education Lyceum 131 Kazan

Bachelor of Information Security, HSE, GPA: 6.41 2021 - 2025

SKILLS

Technical Skills	Python
Libraries	PyTorch, Tensorflow, Matplotlib, Seaborn, Scikit-learn, Catboost, Numpy, Pandas, OpenCV, img2vec, SQL,
Soft Skills	Communication skills, Organization skills, Analytical skills, Learn-ability

PROJECTS

Embedding watermarks in the frequency domain of an image. Implemented algorithms for embedding and extracting a watermark into the frequency domain of an image. Experiments were carried out to analyze the invisibility, reliability, capacity, performance and security of embedding a watermark in an image.

Telegram bot. Created a telegram bot to view the schedule of classes, exams and add and track deadlines

IDA. Homeworks from minor IDA <https://github.com/Dok31/iad-intro-ds>

PERSONAL INTERESTS

- Board games
- Swimming
